ARNOLD'S COMBINED

FOOT-STOVE, LANTERN,
....AND....
NURSE-LAMP,
ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.
As a FOOT-STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.
As a LANTERN, it answers all the usual purposes, and is less likely to be overset or get broken, and can be used as a house lamp with equal advantage.
As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.
In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

STOVES!

MITCHELL & MORSE, No. 3 Exchange-st, Bangor,

PHILLIPS & WITHERLY BLOCK,
Would remind their friends and the public generally, that they continue to sell the most approved kinds of COOKING APPARATUS in use; among them that celebrated STOVE, the
BELLE OF THE STATES,
which has not been equalled in this or any other market, and commends itself to every person who in their selection, desire to combine economy, convenience and durability, as well as beauty of appearance. It will take the least fuel and accomplish the most work in the least time of any Stove ever offered to the public. Its external appearance is neat and substantial, being heavier than any other Stove of its size, and of a beautiful design. The oven is very large, extending under the fire boxes in front, and heated and ventilated to the most perfect manner. It is WARRANTED to give perfect satisfaction, or to be returned and the money refunded.
---ALSO---
A great variety of STOVES of less note, such as the Bay State Improved, Granite State, Anglo Saxon, Representative, Boston Jewel, &c., &c., together with an almost endless variety of
Parlor, Office, Hall, and Store Stoves, and Coal Grates,
of the best patterns and qualities. CISTERN PUMPS, Block Tin and Lead Pipe, Sheet Lead, Iron, and Zinc; Japanned and Brittannia Ware—together with a general assortment of

GREAT
American and Foreign Office,
—FOR—
Securing Patents for Inventions.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.
R. H. EDDY,
No. 76 State Street, opposite Kilby St.,
BOSTON.
IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.
This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add, that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able beyond question, to offer superior facilities for obtaining patents.
Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
Copies of the claims of any patent furnished for one dollar. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the high est respectability.
R. H. EDDY, Solicitor of Patents.

TESTIMONIALS.
"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE, Late Commissioner of Patents."
[From the present Commissioner.]
"AUGUST, 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

The Boston Journal.
The New England Family Newspaper.
New Type and a New Press.
GREAT REDUCTION TO CLUBS!
PAYMENT INVARIABLY IN ADVANCE.
ENCOURAGED by the very liberal patronage heretofore bestowed upon the JOURNAL, and in accordance with the spirit of the present age, the proprietor has decided to reduce the price of the Weekly Journal to Clubs, to the following rates:

One copy, one year	$2,00
Two copies, one year, to one address	3,00
Five copies, one year, to one address	6,00
Ten copies, one year, to one address	10,00

PAYMENT TO BE MADE
INVARIABLY IN ADVANCE.
At the expiration of the time for which advance payment has been received, the paper will in all cases be stopped. By the adoption of this cash system, the employment of agents to collect subscriptions will be unnecessary, and their expenses will be saved to the subscriber.

THE BOSTON JOURNAL
has for many years confessedly stood at the head of the newspaper press of New England. This position was attained not through any special effort on the part of its publishers to increase the circulation by agents or other of the usual means, but because it has proved to be such a paper as every moral, intelligent man in the community might with propriety introduce into his family circle, to be read by his children, and from which he might draw for them both instruction and entertainment. With such a character it has earned the position it occupies; and the fact that its circulation is much larger than any other paper of its class in New England, is the clearest proof of the estimation in which it is held by the reading community.
It is our purpose now to greatly extend the circulation of the Weekly Journal. Preparatory to doing this, we have procured
New and Beautiful Type,
with which to print it, and have also ordered one of
Hoe's Six Cylinder Fast Presses,
with which we can print FIFTEEN THOUSAND COPIES AN HOUR. This press will enable us to hold back our forms to a very late hour for important news, and yet to work off the edition in season for the mails. With this improvement in our printing department we believe we can give our readers as handsome a paper as is printed in New England. The general character of the paper has proved so acceptable that we shall attempt no change. It is, and will be, emphatically
A Family Newspaper.
We intend that it shall be a complete record of the events of the age in which we live; that the attentive and careful reader of its pages shall be able to gather from them accurate and reliable information of every event of interest in politics, the arts and sciences, morals and religion, in this country and in foreign lands; and that they shall have this information at an earlier day than they can obtain it from any other source. To collate this intelligence from the thousand different sources where it is to be sought, to separate the wheat from the chaff, and to arrange and present it to the reader in a concise and intelligible form, is a work requiring not only a great expenditure of money, but also years of experience. We have the services of MEN EDUCATED FOR THE BUSINESS, to prepare the matter for the JOURNAL, and we shall spare no expense to enable them to do their work in the most thorough manner.
The COMMERCIAL DEPARTMENT of the JOURNAL is second to that of no other weekly paper in New England. It embraces a carefully corrected PRICES CURRENT, a REVIEW OF THE MARKET for the week, stating the amount of business in the different articles of merchandise and the variations in prices, a separate article on the MONEY MARKET, original reports of the Brighton and Cambridge CATTLE MARKETS, the NEW YORK CATTLE MARKET, SHIP NEWS, &c. These reports are all prepared by men of large experience, thoroughly conversant with the departments under their charge, and they are now relied upon by thousands of merchants and traders throughout the country, to guide them in their purchases and sales.
The LITERARY DEPARTMENT will embrace reviews and extracts from advance copies of the works issued by the leading publishing houses throughout the country. In this way the readers of the JOURNAL get the cream of the Literature of the country, and are enabled to select, from the flood of new books issued such as they may desire for their centre tables or the shelves of their libraries.
In the MISCELLANEOUS DEPARTMENT we shall make provision for the entertainment and instruction of our young friends—the children. A good story—calculated to improve the mind and heart, while it furnishes entertainment for the passing hour, will be a prominent feature in this department.

THE BOSTON DAILY JOURNAL
(Morning or evening edition, as may be desired,) is sent to subscribers by mail, to any part of the United States, for SIX DOLLARS a year. By means of our Fast Press we are able to keep the forms for the DAILY JOURNAL open several hours later than any other daily paper, and thus not unfrequently to publish important news from TWELVE TO TWENTY-FOUR HOURS IN ADVANCE. The average circulation of the DAILY JOURNAL is more than double that of any subscription or two cent paper published in Boston.

THE SEMI-WEEKLY JOURNAL,
containing all the reading matter of the Daily—is published TUESDAY and FRIDAY mornings, at FOUR DOLLARS a year.

BOSTON JOURNAL FOR CALIFORNIA
is printed on the 4th and 19th of each month, for mailing by the steamers of the 5th and 20th. It is made up with the greatest care for the information of New England men in California. Over TWELVE THOUSAND COPIES a month are now sent there, which is a much larger circulation than any other paper printed in the Atlantic States has. It is mailed at this office for SIX CENTS a copy. A person sending one dollar can have one each of sixteen numbers sent to any one they may desire.
☞ Agents and Newsmen supplied with either Edition of the JOURNAL, on the most liberal terms.
Orders for either edition of the JOURNAL must be invariably accompanied by the CASH, and should be addressed to
CHARLES O. ROGERS, 12 State Street, Boston.
Boston, December, 1855
To newspapers that may copy this prospectus, with an editorial reference directing attention to it, and send a copy marked to this office, we will send the Daily Journal for one year.

State Reform School.

The Second Annual Report of the Trustees and Superintendent is received,—from which it appears that the institution on the 1st of December contained about as many inmates as could be accommodated. The beneficial effects of the discipline and instruction are marked and gratifying—although it is recommended to limit the maximum age of boys sent there to 16 instead of 18 years. Those of the latter age are not so susceptible of improvement—and many of them exercise a deleterious influence upon the younger inmates. A larger proportion of them, also, become permanent inmates, thus tending to keep the institution full, to the exclusion of younger and more promising cases.

The number of inmates Dec. 1, 1855, was 334. Admitted during the year 148. Discharged during the year 27. In all, 205 have been admitted, as follows: By order of the Supreme Court 28, by Courts in Portland 81, Bangor 45, Gardiner 16, Bath 15, Augusta 10, Hallowell 6, Rockland 7, Biddeford 9, Calais 2, Belfast 1; by order from Justices of the Peace in other towns 60.

The following are the admissions by counties: Androscoggin 10, Cumberland 83, Franklin 7, Hancock 1, Kennebec 42, Lincoln 21, Oxford 3, Penobscot 60, Piscataquis 1, Somerset 11, Sagadahoc 16, Waldo 6, Washington 12, York 30.

Nine-tenths of them were committed to remain during their minority; 25 for one year, 35 for two years; 30 for three years, 33 for four years; 27 for five years; 7 for six years, 7 for seven years, 4 for eight years, and one each for nine, ten and twelve years.

One hundred and forty six were committed for larceny, 33 for vagrancy, 46 as "common runaways," 9 for truancy, and the balance for various offences.

One hundred and ninety-two were born in Maine, 35 in other States, and 34 in foreign countries. 38 of those born in the United States are of foreign parentage.

Sixty-one of the boys are less than 12 years of age—and two of them only seven.

One hundred and twenty have either no intemperate father or mother, or both; 84 have been in the habit of drinking themselves; 113 have never attended Sabbath School.

[illegible] other interesting statistics which we have no room to copy.

The Trustees say that an additional sum of $7000 will be necessary to defray the current expenses of the institution up to April 1st, 1856; and for the year ending April 1st, 1857, an appropriation of $24,500 will be necessary, after allowing $4,000 for the labor of the boys.

There has been but one death in the school since it was opened, and no other case of [illegible] sickness—a fact that speaks well for the salubrity of the location and the health of the school, and the [illegible] and discipline of the school.

The improvement of the boys in education has been marked.

The boys generally perform labor on the farm or any other kind. Its tendency is to make them contented and happy.

Fourteen thousand days work have been performed on the farm by the boys. In the tailor's shop 4123 [illegible] have been made, and 12,510 articles repaired.

A Sabbath School has been held regularly, conducted by ladies and gentlemen of Portland.

The Superintendent recommends that any two of the Trustees may have power to reject a boy, or to remand him to his alternative sentence.

Mr. W. R. Lincoln, the Superintendent, appears to have discharged his duties in a highly satisfactory manner.

New Political Definitions from advance sheets of the coming State Paper.

Two strings to your bow.—Nominate two candidates for [illegible], so that the second best may be State Treasurer.

Sanctity of the Judiciary.—Getting up bills to change the Courts of the State.

Fusion.—An epithet to be dropped now.

Consistency (obsolete.)

Portland Advertiser.

A Few More.—*Very Restricted Sales*,—Accommodating all purchasers.

Regulating the Sale,—Allowing dealers to sell to the rich, but not to the poor.

Item.—Allowing poor people to buy of the dealer, but denying them the right to drink.

Universal Freedom.—Giving the South freedom to carry slavery over all creation, and the North freedom to *acquiesce*.

Corrupt Coalition.—For Whigs to vote for Morrill and resistance to slavery.

Holy Alliance.—For Whigs to vote for Wells and acquiescence.

Fusion,—Going into the Republican party.

Anti-Fusion,—Going into the Democratic party.

Dutiful Heads of Families.—Affectionate landlords with paradise [illegible]—punches for their guests.

Railroad Accidents in 1855.—By a table, as near as complete as possible, of all the casualties to railroad trains during the past year, it appears that there have been 142 accidents, by which 116 persons were killed and 539 wounded.

Of the 116 killed 61 were engineers, conductors, brakemen and employees on the Roads, and 55 were passengers. As compared with previous years, the number of accidents, as well as the number of persons killed or injured, is less than in either of 1853 or 1854, notwithstanding the increased number of Railroads.

Drowned in Pursuit of a Hat.—Patrick McGurney, went into the river, at Lowell, on Sunday after his hat, and becoming chilled, was drowned.

New Publications.

The American Almanac for 1856. Boston: Crosby, Nichols & Co. This most valuable of all the annuals makes its appearance in neat and handsome typography, and is a welcome visitor to our table. It contains a mass of statistical and other information, relative to all the material interests of our country, its governments, political statistics, railroads, trade, commerce and financial affairs, which no man can elsewhere procure without an immense expenditure of time and money. Its 400 ample pages contain reliable information upon almost every subject to which a business man or political statistician may wish to refer. We endorse with pleasure the following encomium, by one of the leading Boston papers:

"To a man of business, and to any one who desires an admirable and convenient hand book of reference upon matters of general importance embracing the widest range of information in regard to the domestic affairs of the several States and of the United States, in their political, commercial, financial, judicial and social relations, together with a great deal of useful and interesting scientific matter, the work is absolutely indispensable. Indeed, in its improved condition, it affords new evidence of the industry, intelligence and unwearied pains of its accomplished editor, and we are glad to learn that a publication of such extensive and increasing usefulness and excellence is steadily extending that range of public favor which its substantial merits had long since secured."

The Lady's Almanac for 1856, issued by John P. Jewett & Co. of Boston, is a gem among the Annuals. Every gentleman who sees it will desire to present one to his wife or to his lady love. Copies sent by mail, post paid, on the receipt of 25 cents.

The Alcoholic Controversy. A Review of the Westminster Review on the Physiological Errors of Teetotalism. By R. T. Trall, M. D. New York: Fowler & Wells. 1856.

This is an able, and we think, a conclusive answer to a recent article in the Westminster Review which has excited considerable attention in this country. It is a scientific argument, based upon physiological facts, going to show that the effects of Alcohol on the human system are very rarely beneficial, but on the contrary almost always pernicious. The pamphlet contains 114 pages.

The Student and Schoolmate—a Monthly Reader for School and Home Instruction, is published by Robinson & Richardson, 119 Washington St., Boston, at $1 per year.

A pleasant and useful publication for children.

The Columbian Song Book. By Asa Fitz, Boston: Hawking, Swan & Brown, 1856.

This work, by the author of the "Common School Song Book, &c.," contains a choice collection of Songs, Duetts, Glees, Rounds, and Devotional Music, and is intended for the use of the School Room.

The Sabbath Minstrel, by the same author, and the same publishers, is a selection of Songs and Hymns for Sabbath Schools. They are of the very choicest kind, and very desirable books for cultivating a musical taste in the young.

The Sacred Plains. By J. T. Headley. Boston: [illegible] 1856.

This work, heretofore announced, is received by Mr. O. R. Patch. The design of the author is "to render more familiar and lifelike some of the scenes commemorated in the Bible," and he has endeavored to construct one leading incident with each locality treated of. The Plains of Shinar, of Jordan, of Mamre, of Moab, of Jericho, of Sharon, of Shiloh, of Moreh, of Dura, of Esdraelon, of Dina, [illegible] and of Galilee are the topics of the work.

A correspondent of the New Orleans Picayune, at Jackson, Miss., gives an account of the burning of a negro at Lexington, in that State, after chaining him to a stake, in the public street, for a violent personal outrage upon a young woman, who is not likely to survive her injuries.

Duplicate Impression Paper for embroidering, and for engraving plans, pictures, drawings, &c. on cloth, wood, stone or paper, is manufactured by D. B. Brooks & Brother, Salem, Mass., and for sale in Bangor by H. R. Batch. It is put up in 25 cent packages, with directions for use.

Coal. 6,517,505 tons of anthracite and 686,535 tons of semi-anthracite coal were sent to market last year from the Pennsylvania mines. From Maryland, 664,304 tons of bituminous, and 288,108 tons received from foreign ports.

The Democrats of St. Louis have passed resolutions condemning Pierce's administration,—among other things for violating the slavery compromises, and thus bringing the country to the brink of civil war.

The Kansas Herald of Freedom thinks the population of that territory will be 100,000 by Spring.

A post office has been established at Knox, Waldo Co. Maine, and M. S. Wentworth appointed postmaster.

Henry M. Fuller Endorsed in Virginia.—The Republicans in Congress have been censured for withholding their support from Mr. Fuller. If his bid for the votes of Slave holders and Dough-Faces had not furnished those who are voting for Mr. Banks in preference to Mr. Fuller, a sufficient justification, the following resolution passed by the Know Nothing Councils of Richmond, would:—

Resolved, As the sense of this council, that the wise, statesmanlike, conservative, national and patriotic views expressed by the Hon. Henry M. Fuller, of Pennsylvania, in his recent speech in Congress, are eminently entitled to the unqualified and hearty approval of all who love their country; and that the Southern American Representatives, in giving him their unanimous support, have proved themselves worthy of the trust committed to their hands.

The Peace Manifesto of Louis Napoleon.

The English papers refer as follows to the manifesto which has recently appeared at Paris, and created so profound a sensation:

(From The London Herald, of 26th Dec.)

In our second edition of yesterday appeared the most remarkable and important document which the progress of the war has yet produced. We refer, of course, to the State paper published in Paris, in the shape of a *brochure*, entitled "Necessity of a Congress for pacifying Europe, by a Statesman." Its inspiration, if not its direct authorship, has been referred to that source from whence has proceeded many of the ablest papers on the Eastern question which have of late been given to Europe. In a word, *it is recognized by the French press as the production of the head of the French Government*; and, assuming that it reflects the opinions and views of Napoleon III., we do not hesitate to say that it will be perused in these countries with *eminent disappointment and dissatisfaction*. After a most careful consideration of its contents, we have come to the conclusion that France does not think she will find her account in a further prosecution of the war, and that it is the deliberate opinion of the Cabinet of Paris that the object of the war has been accomplished in the fall of Sebastopol and the destruction of the Russian fleet in the Euxine.

EFFECT OF THE "MANIFESTO" IN PARIS.

From the Correspondence of the Chronicle.

The *brochure* of which my letter made mention yesterday has, according to promise, appeared to-day, producing, as might have been anticipated, a most profound sensation. Your readers will now consult this State paper, for such it deserves to be called in the highest sense of the word, and while their feelings will be no less moved than are those of the citizens of the capital, of their greatly, they will probably be more perplexed. A State paper attributed to use the language of the Debats, *to the inspiration of an illustrious person*, which *begins with censure on the English press*, which, as it proceeds, opens to Russia prospects of advantages of the East, with which France, as it is deduced, can have no particular concern, and which concludes by suggesting the possibility of a difference of interest between the allies as regards the Baltic that the next campaign may render apparent—such a paper, we sorrowfully repeat, will be perused with pain in England. France, or rather Russia, is told that so far as the former is concerned, the object of the war has been attained by the destruction of the Russian fleet in the Black Sea. France does not want to deprive Russia of any portion of territory, or to oblige her to raze fortifications, or to prevent her having her due share of the protectorate which it appears the Great Powers mean to exercise over the Christian subjects of the Porte. What she does want is to preserve Constantinople from the grasp of her adversary. Constantinople is secured by the destruction of the destruction of the Russian fleet. So far, then, as France is concerned, there exists no more cause for war. With the exception of Constantinople Russia may give full rein to her efforts in the East, and rule the Baltic as of old. In giving up her designs on Constantinople, she only abandons a project which, justifiable in the time of Peter the Great, is no longer so; nor should such a concession to the altered spirit of the times be considered a humiliation.

France, by her arms, helped the United States to become independent of England, and England in turn added powerfully to bringing France to Belgium, and the Rhenish Provinces, yet now are they friends and allies. The loss of her American provinces did not prove a diminution of England's power and commerce, and France with a new reduced limit under Napoleon III., exercises an influence over the Continent such as had not been enjoyed by Louis XIV., or the great Emperor himself—How do we Russia know, asks the writer, but that stopped in the like way in her progress towards Turkey, she may not open for herself in the East a mightier career than ever she had contemplated. Let Russia, then, magnanimously respond to the invitation to be represented at a congress, and an armistice shall at once be proclaimed. As we said yesterday, be here we read the *brochure*, so we say to-day, after the most respectful consideration of this paper, a congress, prematurely called, would throw to the advantage of Austria and Prussia, because by such congress would be ratified the partition of Poland and sealed the fate of Italy. Such a settlement would only serve to give intensity to discontent, and prepare the way for an explosion of the most awful character. There is but one way of insuring the tranquility of Europe, and that is by a good peace. The fall [illegible] of the East, [illegible] at the Baltic and the [illegible] [illegible] to France a sort of exclusive glory, and she may feel how if tempted to close a war under the splendid capture of the Malakoff. The next campaign will be more particularly a naval character, in which England will be well prepared to vindicate her ancient renown on the seas.

Preparations Against Cronstadt.—The Paris correspondent of the N. Y. York Evening Post gives the following account of the preparations that have been made for the assault on Cronstadt:

"In the formidable preparations for this enterprise England will provide the materials for the attack, while France will furnish the men, which will consist of fifty thousand men, and will be increased to sixty thousand by the addition of ten thousand Sardinians. It is generally thought that General Canrobert will be placed at the head of the invading forces.

They have balls which will penetrate granite walls at the distance of one and a half leagues. The covering of the gun-boats is also proof against the balls of the enemy, which, striking repeatedly in the same place, produce merely a slight scratch. Better still, they have discovered a way of *floating* the whole battery of a hundred and twenty gun ship *larboard* or starboard, as well as of the gun boats, [illegible] one place at the same moment. Consequently unless Russia has been enabled to collect the means of defence on a like formidable scale, England relies upon destroying Cronstadt by a *coup*. France will complete the work, and all will be ready to march upon St. Petersburg. This, indeed, is merely their expectation but I am bound to add that it is not entirely without foundation."

The Italian Opera at Paris has produced, by way of *intermède musicale*, a musical wonder from Italy, who seems to have been the subject of much enthusiasm in his native country. He is a blind Sardinian shepherd, named Picco, who plays on an instrument called the Tibia Pastorali, a penny whistle, of the rudest and most primitive construction, with only three holes, and its length not exceeding that of a [illegible]. Yet upon this barbarous instrument, he has performed at the San Carlos and La Scala and the Neapolitan and other journals declare that the blind musician draws sounds as delicate as those of the sweetest flute, and that his execution upon it is even still more marvellous. The critics of Paris confirm the praises of the Italian journals.

Iron and Gutta Percha Cars.—Somebody in Albany is getting up a railroad car out of wrought iron and gutta percha. Such a car can be jammed, but not broken. It may smash up, but it can make no splinters, nor lacerate limbs. The idea is a good one. If they should make some of the employees or rail roads of India rubber they would be quite as useful, and less likely to suffer injury from the results of their own carelessness and inefficiency. Railroad "operators," of course, could not be made of gutta percha, for it is necessary for them to [illegible].—*Boston Courier.*

Peace Rumors. All the foreign papers, but they come in no form of credit or consistency. They only show that there is a general desire for peace; but that there are great difficulties in the way of it. It is plain enough that all the belligerents have suffered severely, and that all the neutrals are alarmed lest they should be forced into a contest in which they have nothing to gain on either side, and everything to lose. Still, with a general disposition to peace, and with no prospect of advantage to any body by continuing the war, it is extremely difficult to arrange the terms on which peace shall be concluded, to consult and reconcile so many interests, and give the chief powers something which shall be an excuse for the war, and which shall show a result in the peace.

If such a thing were possible as a German unity, even upon a single question in which all the German powers have a common interest, they might, with little difficulty, bring the war to a conclusion. Their geographical position, and their great military strength, would enable them to interfere effectually, and their more right to dictate the terms on which a war that is desolating a great part of Europe, and that is threatening to extend to them, should be concluded, is plainer than the reasons which have induced either of the belligerents to plunge into a contest, of which none of them could see the end or very well understand the purpose.

Providence Journal.

Sagacity of a Horse. A friend, whose word is reliable, lately told us the following anecdote of a horse owned by his father. It was known by the euphonious title of 'Silver Tail,' and was rather noted for a large share of horse sense. Silver Tail was pastured in company with sundry cows, where one side of their enclosure was bounded by a broad but not very deep ditch, on the other side of which was mowing land. Of course it was an object to get across this ditch, and one day Silver Tail was observed reconnoitering carefully and trying the ditch at several points, but not apparently quite ready to run the risk of getting mired for the sake of getting a dab at better grass. He finally settled in his mind the spot that offered the best prospect of a safe transit, and off he started towards the cows, which, by the way, he had often driven home with the aid of a boy on his back. He selected one of them, and drove her towards the ditch, and by a skillful manoeuvering, forced her to plunge through, which she did without any serious difficulty. Having thus satisfied his mind in regard to the safety of the transaction, he followed her across the ditch, going exactly in her trail. This was not, however, the most amusing part of the performance.—Those who have observed the habits of cows know that when they go through water they elevate their caudal appendages as if to avoid wetting them. The cow followed the usual practice in such cases and Silver Tail having adopted her as his guide, felt bound to follow her example in every particular, and accordingly marched through with his stump of a tail raised to rather more than a horizontal position.—*Christian Courant.*

Accident to an Aeronaut. The Paris correspondent of the New York Express relates the following:

"M. Godard son of the celebrated aeronaut, who is I believe, now "exploiting" in the United States, made a balloon ascension near Paris, the other day, which came near being the last of his earthly flights. M. Godard was executing a series of dangerous "pigeon wings" in the air, when all at once, the aerial machine exploded, and the balloonist commenced tumbling at a more rapid rate than he had bargained for. He had just time to spread his parachute to stop, partially, his fearful descent, and thus saved his life. As it was, he came down upon the frozen ground with a terrific thump, but fortunately broke no bones. He was, however, dangerously bruised. M. Godard, Jr., has ended his ballooning for the present."

A New Protection against Insects.—The Imperial Horticultural Society of Paris, has just received a communication from M. Pessier, one of its members, stating that the ammoniacal waters of gas have the property of destroying the insects which commit such ravages on the fruit trees. This ammoniacal water is mixed with three-fourths its quantity of common water, and is then sprinkled over the leaves and branches of the trees. A small trench is dug around each tree to receive the water which falls, and this kills the destructive insects which harbor about the roots of fruit trees.

Improved Plane Iron. An improved plane iron has recently been invented, and promises well. In this improvement, the cutting iron is placed inside of a thin piece of metallic case, open at both ends. This case, with its cutter is wedged into the plane in the common manner. The cutter is moved up and down within the case by means of a set screw. The thickness of the shaving is adjusted with the utmost facility, by simply turning a screw.

Avalanches. Much damage has been done in Boston by snow avalanches, which coming from the roofs of churches have unceremoniously entered the windows of contiguous dwelling houses, smashing all before them. A shed under which carriages were stored was crushed by the weight of snow, and a damage of $2,000 ensued, in Providence.

The Weather in Texas. A San Antonio correspondent writes "The oldest inhabitant remembers not the like of the present weather. The thermometer shows it to be colder than was ever before felt in this country. Ice is three inches thick, and the mercury stood yesterday at 16 degrees below freezing point."

Planing Machines. Some one calculates that there are now over thirty thousand planing machines in operation in the United States, each doing some sixty men's work.—If they should all be discontinued, it would require eighteen hundred thousand men to perform the same labor.

Remarkable Passage. The new fore and aft schooner Georgiana, built by Elisha Brown, at Owl's Head, Me., sailed from Boston, bound to Smyrna on the afternoon of Saturday, November 3 and anchored that night in Nantasket roads, and sailed again the next morning.—She arrived at Smyrna on the 9th of December, making the passage in the short time of thirty-four days.

A Long Sentence. Edward Norton, tried at Trenton, N. J., on a charge of burglary, recently was convicted on thirteen indictments, which, if sentenced to the full extent of the law, would cover 180 years in the State Prison.

Shipbuilding. In Machias collection district, there were built last year, 1 bark, 8 brigs and 14 schooners. The amount of tonnage was 4,691. Last year the building in this district amounted to 7,800 tons.

Cause and Effect. An exchange says that large quantities of sausages are made of horse-flesh. A friend of ours says he believes it, as he invariably has the nightmare when he has eaten them for supper.

Legislature of Maine.

Wednesday, January 16

Senate. Mr. Butler introduced Resolves making "The Age" the State paper, which, on the rules being suspended, was read a second time and then passed to be engrossed.

On motion of Mr. Shepard,

Ordered, That the committee on the judiciary be instructed to inquire into the expediency of repealing an act for the dissection of paupers, passed by the last Legislature.

Mr. Shepard said that in the last campaign, it was repeatedly asserted by stump speakers, that such a law was passed by the last Legislature. Although a member of the Senate last year, he did not recollect of any such law having been enacted, neither could he find it in any copy of the Statutes. His object in introducing the order was that the committee might ascertain whether such a law is in existence.

Mr. Farley said that it was notorious that no such law was passed by the last Legislature. He thought that the Senate could be better employed than giving their attention to assertions made in campaign speeches. Mr. F. moved that the order lie on the table, which motion prevailed. Adjourned.

House. On motion of Mr. Chamberlain of Foxcroft,

Ordered, That the petition of James S. Holmes and als. in aid of Foxcroft Academy, be taken from the files and referred to the committee on Education.

On motion of Mr. Blake of Bangor,

Ordered, That the Land Agent be requested to furnish to the House a statement in tabular form, of the number of townships or parts of townships of land purchased of Massachusetts, designating therein the number and range of each, and how much of each has been sold and the title passed, also designating which townships were under unexpired permits from Massachusetts and when said permits will terminate, the number and range of all other townships and parts of townships belonging to the State, and what has been conveyed since January 1, 1853, stating by their designations on the maps, all the townships belonging to the State.

Resolve appointing "The Age" State paper, was presented by Mr. Talbot of Lubec, and once read.

Mr. Talbot moved that the rules be suspended and the resolve have its second reading at once.

Mr. Scammon of Saco, saw no reason why the rules should be suspended for every trivial matter that comes along. In a case of emergency suspension was proper, but that was not the case in the present instance. Could any reason be assigned why the resolve should not be laid on the table, and a time be assigned for its consideration? He was astonished that the rules should be so grossly disregarded. They had been, trampled upon here, rode over in some instances, without notice or action upon them. What use is there of having any rules at all, if you don't abide by them? The rules were adopted for the protection of the House, and to prevent hasty legislation. At this rate anything can be put through here, if a person watches his opportunity.

The yeas and nays were taken, and the House decided not to suspend the rules, 73 voting in the affirmative, and 55 in the negative; a two thirds vote being required.

Mr. Talbot by leave then withdrew the resolve.

A similar resolve was received from the Senate appointing "The Age" State paper, read once and to-morrow assigned.

The order introduced by Mr. Lyman of Portland, assigning the tenth day of February as the time after which all petitions &c. requiring orders of notice should be referred to the next Legislature, was taken from the table, amended by substituting the fifteenth day of that month, and passed.

Petitions referred. Of James Babcock and Asa Smith for a boom on Mattawamkeag river. J. I. Foss and als. in aid of same. Waldo T. Pierce and als. to bridge Kenduskeag stream at Bangor. John Winn, President of Lincoln and Oldtown Railroad, for extension of time.

The Speaker to be chosen this Congress, estimated by the cost of choosing him, will be likely to prove the most valuable man in the nation. He has cost the United States Treasury so far, about $100,000.

Holloway's Ointment and Pills the most celebrated Remedies for the Cure of Sore Arms. Samuel Wentworth of N. [illegible], Maine, was for five years afflicted with sore arms. There were a few different ulcers on them, and the trying nature of his business (a shoemaker) made him so much worse that he despaired of his wishes. He was compelled to relinquish it. He tried various remedies, and they failed to benefit him. However, about 13 weeks ago, at the recommendation of a friend, he had recourse to Holloway's Ointment and Pills, which very soon made him better, and he called on Professor Holloway, four weeks since, to show him his arms, which were quite well, and with scarcely the scars perceptible.

The following high testimonial in favor of Dr. Hayden's Pills is from Wm. H. Eddy, Esq., of Cambridge.

Dear Sir—Allow me to congratulate you on the splendid success which your Pills have met with by the public, which I daily hear spoken of in the highest terms of praise for their superior merit over all other Pills. I can freely add my testimony in their behalf having used them myself and in my family with decided benefit. If this humble tribute to their virtues is of any service to you you are at liberty to use the same in any manner you may think proper. I am, dear sir, yours, with much esteem,

WILLIAM H. EDDY.

Coughs and Colds. At this season of the year, when coughs and colds are so prevalent, a reliable remedy in such cases is important to all the afflicted. Of Dr. Stone's medicine, which will be found advertised in our paper the Montreal Pilot says:

"The astonishing demand for D. W. Stone's Cough Medicine, and its complete success in curing affections of the throat and lungs fully proves that we were justified in recommending it to our readers on its introduction to the public, and we can safely assert that no remedy has ever become so deservedly popular in the same space of time."—[Lowell News.

The old and true maxim that an ounce of preventative is worth a pound of cure, will be fully realized by those who make use of G. W. Stone's Liquid Cathartic and Family Physic, as it cleanses the blood from all impurity, frees the stomach from bile, produces a healthy action of the liver, and perfectly regulates the bowels. It also removes all local pains, prevents and cures dysentery, diarrhea, cholera morbus or cholera, strengthens the whole system, and is perfectly agreeable to the taste.

TO THE DAILY WHIG AND COURIER.

Congressional.

Washington, Jan. 18.

House. Mr. Giddings advocated the adoption of the plurality resolution, declaring that the House cannot organize on any other principle. He called on democrats to follow their own precedents.

Mr. Cobb of Ga. said that the democratic caucus of 1849 rejected the plurality proposition, which was subsequently adopted. Several members assented to the truth of this statement, and Mr. Cobb continued. With the republicans the issue is "Banks or disorganization," in preference to Mr. Campbell of Ohio, whom they could have elected the other day if all of them had voted for Thorrington's resolution.

Mr. Giddings—I vote as I please, without going to Georgia to learn my duty.

Mr. Cobb—If you did you would be better acquainted with them (laughter). Mr. Tappan in reply to Mr. Cobb said the vote on Mr. Thorrington's resolution was not a fair test, as the republicans had made a nomination other than Mr. Campbell of Ohio. The debate was confined to the democrats and republicans.

Mr. Clingman offered a resolution that until the election of a speaker the first business each day shall be to vote twice, no debate being indulged under any pretext till the two ballots are taken, and further to declare it not in order to vote the third time the same day. Pending the resolution the house adjourned.

A False Statement.

The Union this morning falsely charges the correspondence of the Associated Press from Washington, with stating that Mr. Vail of New Jersey voted for the plurality rule on Tuesday.

The Republicans are holding a caucus to-night.

That very valuable Island known as

Pickering Island.

For Sale Low, if applied for Immediately.

THIS Island is situated in the Penobscot Bay, and near Great Deer Island — is contains about 200 acres of Land, and about 1200 cords of Wood, now ready for cutting and market. The soil is of the best quality. The Island has fine, spacious harbors, which are perfectly safe in the roughest weather, and is well calculated for a Fishing Depot, having abundance of clams, and great fishing grounds in close proximity to the Island. On the premises there is a cottage, quite roomy built a few years since; and in the rear a wood-shed and granery building 40 by 16 feet, also, a good farm-house; a large barn, double boarded, 60 by 32 feet, with a superior frame. A large sheep shed and piggery, blacksmith's shop, &c., &c.

The Stock, which is of the best breeds, will be sold with or without the Island.

It is a beautiful spot, well calculated for a Hotel or large Boarding House.

For further particulars and terms apply to SAM'L HATCH, Auctioneer, Boston, Mass.

LOCKETS!

THE BEST ASSORTMENT OF

GOLD LOCKETS

that can found in the city, is kept by JORDAN, the Daguerreotypist, at

No. 2 Smith's Block.

Lockets with four glasses, called the Family Locket, very beautiful — Locket Rings, &c.

People coming in from the country, if not aware of the fact, should take notice that it is nevertheless true that he sells Lockets with a Daguerreotype set in it for less money than the Locket can be bought of any jeweller in the city.

His long practice in the beautiful art of Daguerreotyping enables him to produce likenesses, which for durability and life-like appearance cannot fail to give satisfaction. dec21 tf

ASSIGNEES' SALE

—of—

Valuable Real Estate!

—AT—

ZILWAUKIE, SAGINAW CO., MICH.

THE following described property will be disposed of at Public Auction, at the *Merchants' Exchange, in the City of New York*, on THURSDAY, the 28th of February, 1856, at noon, unless previously disposed of at private sale, by order of the Assignees.

First — One large Steam Saw Mill, known as the Gang or Mammoth Mill, about 60 by 125, including a gang of 21 saws; 2 maly saws, with siding and edging machines; engine room about 30 by 76 feet. The whole driven by the most powerful engine on the river.

Second — The Mill known as the Shepherd Mill, of about 42 by 63 feet, consisting of two maly saws and edging machines, this mill is said to be equal to any mill of its size on Saginaw river. Both of the above mills are in good repair, with large and commodious Wharfs, Lumber Cars, Railway, Booms, in fact all the necessary appointments of first class mills. The above mills were in operation for about three or four months the last season, and gave the utmost satisfaction in regard to the quantity and quality of lumber cut.

Third — About 400 Village Lots in the village of Zilwaukie, in which there is a large Hotel 40 by 60 feet, two stories high; a new Store 40 by 60 feet, Office and Boarding House, and a number of other Dwellings to accommodate the families of those employed in the mills, and the general business wants of the place.

Zilwaukie is situated on the left bank of the Saginaw, 14 miles from its mouth, and five miles below the county seat, of Saginaw County, with which it is connected by a good road. The location is considered healthy; less sickness has prevailed in that than any other village on the river, according to the population since its settlement; it is at the head of navigation for loaded vessels bound from or to the Lakes, and is considered one of the best points for manufacturing Lumber on the river.

Also, about 500 acres of good Farming Land on Cass River, in Thadola Co.

For further particulars apply to Dr. CHARLES T. DISBROW, East Saginaw, Mich., or ROBT GRINEY, and ALEX. M. LAWRENCE, Assignees, No. 33 South William street, New York.

NEW HALL,

Lewis' Block — Main Street.

THE subscriber respectfully presents to his friends and the dancing public generally, the following plan upon which his academy for the future will be conducted.

For the *Juvenile Classes* the tuition will be $3,00. To those who subscribe to the first two terms in succession, the price for the third and fourth terms will be reduced one half, ($3,00) — The third and fourth term can be taken at the pupil's own convenience, if commenced within six months from the termination of the second term, after which each pupil will be received upon the *free list* for one year.

Former pupils can avail themselves of these conditions by applying as above.

Classes of Adults, or of Juveniles, can be formed to suit the convenience of pupils, and the subscriber wishes it to be particularly understood that he will, as heretofore, continue to impart the most thorough instruction in the latest and most fashionable style of dancing. It is left to the good taste of the public to decide whether a legitimate style of dancing is not superior to an incorrect method, made and taught by those who are unable or unwilling to do better.

Crystalotype Portraits.

DAGUERREOTYPES can be accurately copied by the new Photographic process, enlarged to any required size, and beautifully colored in Oil, Water, or Pastel. Portraits are obtained from the life by this process, requiring no longer sitting than for a common daguerreotype, thus avoiding the serious inconvenience and fatigue of long sittings. Glass daguerreotypes, a new article of unsurpassed richness and durability, are now, for the first time in Bangor, offered to the public. Their great brilliancy and permanancy renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main-street, a short distance below the Bangor House.

LAMPS and CANS.

HAVING purchased the Patent right for the State of Maine for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only sure* prevention against explosions from Camphene and Burning Fluids, being made of the most durable material, not subject to accident from breakage or corrosion — will burn freely, without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after three years trial, to be the best Lamps in use, giving universal satisfaction, and proving perfectly safe.

These Lamps will be sold at wholesale or retail *as low* as the ordinary Camphene and Fluid Lamp, by J. S. RICKER, 15 Main Street, Bangor, Me., dealer in Lamps, China, Glass, and Crockery Ware.

California Steamers, Carrying the United States Mail.

5th and 20th of each Month.

Reduced Prices. 100 lbs Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague and 20 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing the passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's agents before they will be recognized by the Agent at Panama* and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. Fish's Patent Metallic BURIAL CASES!

THESE CASES are extensively used, and possess valuable advantages over all other Coffins, for transportation, Depositing in Vaults, or for ordinary Interments. They are made of the most Imperishable Materials, also enamelled inside and out to prevent rust or corrosion, and when properly cemented, we have the gratifying reflection that the bodies of our deceased loved ones enclosed in them are *free from irruption of Water or Depredations of Vermin*, and may, without offensive odor, be kept obviating the necessity of hasty burials, or if desired transported to a distant land. The remains of the late Hon. Henry Clay, Daniel Webster, and many other distinguished persons, are entombed in receptacles of this kind.

Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE AND EFFECTUAL REMEDY *For Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, Secret Diseases, Obstructions, Female Complaints,* and all Diseases of the Sexual Organs, whether in MALE OR FEMALE, from whatever cause they may have originated, and *no Matter of How Long Standing.*

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints. It searches out the very roots of the disease, driving out all the diseased fluids, and thus removing the cause and [illegible].

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients. This information has saved thousands upon thousands from the hands of *Merciless Quacks,* [illegible] premature graves. In cases of [illegible] the Compound Buchu is the only article worthy of the confidence of the afflicted [illegible].

SAFE CURES.

It contains no narcotic mercury, or other [illegible] drugs, but is a purely VEGETABLE COMPOSITION, very agreeable to the taste, creates no [illegible], and may be taken by persons of either sex without hindrance from business or medical [illegible], as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them. *Delays are Dangerous.* With this medicine you can cure yourself, and thus prevent all exposure. [illegible] *must and will prevail.*

This medicine speedily and effectually cures the most [illegible] form of secret diseases, and eradicates every particle of infectious matter from the patient [illegible] perfect state of *Health and Purity*—And as a [illegible] same which must benefit everybody, from the [illegible] to the confined and desponding, [illegible] no equal is to be found, it acting both as a [illegible] *and Preventive* of any of the above ailments.

HELMBOLD'S HIGHLY CONCENTRATED

Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced during which time they have been extensively used in various parts of the United States and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unbounded satisfaction and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending it in the highest terms the value to these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various other preparations of them have been given, all of which [illegible] will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstruum successive operation to take up the [illegible] matters and in consequence are most frequently improperly made and not unfrequently much impaired, if not rendered totally inert, by the [illegible] and unskillful management of those unacquainted with pharmaceutical preparations.

It is therefore, of the highest consideration and importance to the public and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this, and obviate the evils alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equal in strength to one gallon of Syrup Sarsaparilla or decoction as usually made.

—PRICES—

Fluid Extract Bucha, $1 per bottle, or 6 for $5.

KENNEDY'S MEDICAL DISCOVERY.

The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR,* from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed, growing upon the pastures, and along old stone walls should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the only AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE of MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. Try it and be Convinced.

Universal Cough Mixture

IS a safe and effectual remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY *REV WALTER CLARKE,* Sole Proprietor, Cornishville, Maine.

Within the last twelve years thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Cough it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

FEBRUARY 17th, 1853.

To Rev Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls.

Rev. CLARKE—Every bottle of the Universal Cough Mixture which you left with me is sold—and I have several applications for more. As far as I heard from, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased the large bottle, and before he had taken one third of it he was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES

From Mr Fletcher Chick, agent for North Dixmont, Me.

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing, and others who have been doctored six months without receiving any benefit have been speedily cured by the Universal Cough Mixture.

From Mrs Hubbard, Thorndike, Me.

FEBRUARY 1 1854

To Rev Walter Clark. Dear Sir—I do certify that I have used no bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. It cured entirely, which I began to take according to directions on the label, by which in a few days I was entirely cured.

A MARVELLOUS REMEDY For a Marvellous Age!!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies—Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Heads, Scrofula or Erysipelas can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific Surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has by command of the Allied Governments, despatched to the hospitals of the East, large shipments of his Ointment, to be used under the direction of the Medical Staff in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases

Bunions,	Piles,	Sprains,
Burns,	Rheumatism,	Scalds,
Chapped Hands,	Salt Rheum,	Swelled Glands,
Chilblains,	Skin Diseases,	Stiff Joints,
Fistulas,	Sore Legs,	Ulcers,
Gout,	Sore Breasts,	Venereal Sores,
Lumbago,	Sore Heads,	Wounds of all kinds.
Mercurial Eruptions,	Sore Throats,	
	Sores of all kinds,	

*** Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts 62½ cents, and $1 each.

TESTIMONY FROM MAINE.

Capt Daniel Abbott of Brooklin, Maine, July 16, 1853, says "I was taken sick one year ago last April, upon my passage from Havana to Charleston S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper and rested well that night and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 24, 1854, says: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs Jos. B. Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, had been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters," I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters.

WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

SINGER'S SEWING MACHINES!

THESE machines have long sustained the highest reputation in the United States. THE FIRST PRIZE—A GOLD MEDAL—has recently been awarded to them at the great Exposition at the Palace of Industry in Paris, and thus they have the World's verdict of superiority.

Great improvements have just been added that they run without noise, with ease to the operator, at double the ordinary speed, so that

Twice as much Work can be done

in a day. The greatest clothing and shoe manufacturing establishments in the country use these machines exclusively. They are competent to perform every sort of work in the most perfect style.

As there are very great numbers of inferior or entirely worthless sewing machines of the [illegible] & Blodgett, Avery, Wilson, Grover & Baker [illegible] other patents, which have been sold but [illegible] be used to any advantage, we hereby offer to receive all such machines, and also unimproved ones of our own manufacture, *in exchange for new or latest improved machines*, on liberal terms. The old machines thus obtained by us will be broken up and destroyed. For particulars apply by letter or personally at our New York Office.

N. B. Local Agents wanted to make sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable and pleasant employment is offered.
